LOOK!!!  
He swam  
with me in  
Barbados!

Have you ever been to a sea or an ocean? Have you ever seen an aquatic animal? We are headed on an interactive, hands-on trip in "Intro to Marine Science." We will be exploring the lives and environments of aquatic animals such as whales, sharks, fish, stingrays, crustaceans, and many more! In addition to our text, we will be learning through live remote cameras, multimedia, and personal interviews with a marine biologist at the National Aquarium in Baltimore, MD. We will also be creating and presenting marine animal projects. Join me for a "swim" with God's beautiful aquatic creatures.

"an active teacher in the classroom"

"Simon's favorite teacher"

"Every week teacher Sharon's class has become part of Steven's life, and each week is very happy for both of us."

"Super dynamic! Very positive interaction! My kids love it!"

"I love Mrs. Sharon's class!"

I have been an educator for over 23 years with experience in many different platforms, but my favorite is homeschooling my own children: 12th grade, 8th grade, and 1st grade. When I am not teaching, I enjoy watching my children perform in the drama group, Youth Reaching Others for Christ (YROC), play volleyball, and play hockey. I have a BA in Early Childhood Education, an MS in Elementary Math & Science, and an MS in Curriculum & Instruction. I am passionate about helping all students find their God-given talents while walking through their educational journeys. My goal is to see students succeed in all their classes and have fun at the same time!

The Academy at Bright Ideas Press offers middle school and high school courses for Christian homeschooling families to either supplement or replace their current curriculum. Taught from a Christian worldview, classes at The Academy will encourage students to develop excellent independent study skills which will benefit them both in college and in life. <https://academy.brightideaspress.com/>
