

Pre-Algebra *with Sharon Fisher*

TIME: FRIDAY 11:00 A.M. EST / Office Hours by Appointment
tch4kds@comcast.net / 304-582-8047

Other classes: Intro to Marine Science, Christian Kids Explore World Geography, and Christian Kids Explore US Geography

Math should be engaging and interactive so the students "master it"

Let's put fun back in Math!! Join me for a hands-on way to learn Pre-algebra! Through the year we will introduce pre-algebra mathematics, as well as concepts from geometry and discrete mathematics (used in engineering and computer sciences). We'll cover topics such as prime and composite numbers, fractions, decimals, order of operations, coordinates, exponents, square roots, ratios, algebraic phrases, probability, the Pythagorean Theorem, and more. This class has some arithmetic review but focuses more on pre-algebraic concepts. In addition to our class work, we will learn different techniques to learn math using *more than just paper and pencil*.

My girls LOVED the class and the teacher!!

I have been an educator for over 23 years with experience in many different platforms, but my favorite is homeschooling my own children: 12th grade, 8th grade, and 1st grade. When I am not teaching, I enjoy watching my children perform in the drama group, Youth Reaching Others for Christ (YROC), play volleyball, and play hockey. I have a BA in Early Childhood Education, an MS in Elementary Math & Science, and an MS in Curriculum & Instruction. I am passionate about helping all students find their God-given talents while walking through their educational journeys. My goal is to see students succeed in all their classes and have fun at the same time!

Mrs. Fisher is very punctual with her grading and with her correspondence with the kids!

Super dynamic!
Very positive interaction!
My kids LOVE it!!

Sharon is very careful...her teaching method is unique!

Materials

- Saxon Algebra 1/2 Homeschool Kit with Solutions Manual, 3rd Ed. 9781600329708
- Dry erase board, colored dry erase markers, and a colored cloth to wipe the board

Prerequisite

 – Basic math skills –

Ensure your student is ready for this class by having them complete this placement test:
